Community  
Health

*With you for life*

***Bellarine Community Health provides specialist health services for all ages across five locations on the Bellarine. We are committed to providing quality, affordable health care.***

Bellarine Community Health is proud to promote and advocate for the health needs of our diverse community.

Our service provides safe, inclusive and high quality care for everyone.

We are committed to the safety and wellbeing of children and young people.

### **SERVICE FEES**

Fees for Community Health are calculated based on your income and your ability to pay.

BCH is a registered NDIS provider and fees are charged in accordance with the NDIS Price Guide.

Fees will be explained to you prior to an appointment being made.

If you are experiencing financial difficulty, BCH will provide assistance to enable your child to receive the services they need.

### **GIVE US FEEDBACK**

Bellarine Community Health is wholly committed to improving our services through your experiences.

Please contact us at [haveyoursay@bch.org.au](mailto:haveyoursay@bch.org.au) or complete a feedback form from our website [www.bch.org.au](http://www.bch.org.au)

## **CHILD AND FAMILY SERVICES**

At Bellarine Community Health (BCH) we practice child and family centred evidence-based care.

We recognise that each child is unique and that the family/carer is the expert on their child's needs and abilities. If you have concerns regarding your child's growth and development, our staff will work with you to best support your child.

The BCH Child Health & Development Team of specialised staff have experience working with children and young people who have developmental concerns, delays or diagnosed disability.

Our team work to:

- develop your child's speech, language, physical, feeding and social skills
- support your child's engagement and participation in home, educational, social and community settings
- provide information and support access to other services
- achieve goals for your child which may be identified and discussed during assessment and therapy sessions or within a group environment

BCH therapists support families and carers to look at the individual needs of their child in respect to their age, developmental stage, gender and cultural influence.

## **THERAPY SERVICES**

Services include:

- Community nursing
- Continence clinic
- Nutrition & dietetics
- Occupational therapy
- Podiatry
- Speech pathology
- Group programs
- Play therapy

Refer to the BCH website [www.bch.org.au](http://www.bch.org.au) for information on the latest programs and services available.

Services are available to the general community and NDIS participants at BCH Drysdale, at your home, via telehealth or education setting and in the community.
